World AIDS Vaccine Day

World AIDS Vaccine Day, also known as HIV Vaccine Awareness Day, is observed annually on May 18. HIV vaccine advocates mark the day by promoting the continued urgent need for a vaccine to prevent HIV infection and AIDS. They acknowledge and thank the thousands of volunteers, community members, health professionals, supporters and scientists who are working together to find a safe and effective AIDS vaccine and urge the international community to recognize the importance of investing in new technologies as a critical element of a comprehensive response to the HIV/AIDS epidemic.

The concept of World AIDS Vaccine Day is rooted in a May 18, 1997 commencement speech at Morgan State University made by then-President Bill Clinton. Clinton challenged the world to set new goals in the emerging age of science and technology and develop an AIDS vaccine within the next decade stating, "Only a truly effective, preventive HIV vaccine can limit and eventually eliminate the threat of AIDS."

The first World AIDS Vaccine Day was observed on May 18, 1998, to commemorate the anniversary of Clinton's speech, and the tradition continues today. Each year communities around the globe hold a variety of activities on World AIDS Vaccine Day to raise awareness for AIDS vaccines, educate communities about HIV prevention and research for an AIDS vaccine and bring attention to the ways in which ordinary people can be a part of the international effort to stem the pandemic.

Meet on Zero-garbage-Ziro

No stone will be left unturned to keep Ziro free from garbage: Taki

ZIRO, May 18:

Taking serious view of the chronic garbage management problem afflicting the Dist.Hq. for a long time, local MLA and Minister Agri and allied Er.Tage Taki said besides appropriate corrective measures to mitigate the problem, punitive actions would also be initiated against the erring Urban Development and Housing Department officials for their lackadaisical attitude in the burning issue on Friday, May 12.

Taki said this during the meeting held to discuss the ways and means to end the nagging garbage problem at the valley at conference hall of District Secretariat here today.

The Minister said the Material Recovery Facility (MRF) constructed at the cost of Rs 2 crore at Tabu Putu in 2021 and the Swachh Machine (SM) at Hong Village constructed in 2019 by UD&H department were still lying idle for the past many years. The non-functioning of these projects and machines provided by Govt for welfare of the people has greatly affected the smooth garbage management system at the District and we will ensure appropriate remedial measures as well as punitive actions, he explained.

No garbage has been lifted

for the past two months by UD&H department garbage vans creating woes and agonies to denizens of the valley. Dumping at the MRF has been objected by locals of the area for emanating foul smell. Although the buildings and machineries are in place at the MRF, machineries meant for segregation and other processes of scientific garbage disposal could not be operationalized due to inadequate power supply. In absence of that, the piled up garbage gives a foul smell which is objected by the locals and dumping of the garbage restrained accordingly.

Similarly, the Swachh Machine meant to burn off the dry garbage is also lying defunct due to inadequate power supply issue. The UD&H department had not sought enough power supply to run these machines at both the sites hence the inadequate power supply issue and the need to augment them to run and operationalize these machines and projects.

While castigating the UD&H department for creating this garbage issue mess at the valley, Lower Subansiri Deputy Commissioner Bamin Nime said he was also deeply concerned with the burning issue and sought cooperation and support from all stakeholders to mitigate the

problem at the earliest.

Among others, the meeting resolved to constitute an enquiry committee to study and unearth the reasons for non-functioning of the MRF and the Swachh Machine projects, to transfer the erring UD&H department officials from the District and outsourcing of the garbage management to a private party. Further, the UD&H department was also instructed to engage their vans to lift the garbage from the valley and also to assist the scrap dealers to transport the scraps from the valley to North Lakhimpur in Assam.

The meeting was also attended by officials of UD&H and PHE&WS departments, Tani Supung Dukung president S.K Shalla, Hapoli Bazaar Committee secretary Nada Buda, Old Ziro Bazaar Committee president Talyang Mollo, Apatani Women Association Ziro(AWAZ) President Hibu Lilly and Secretary Leegang Anya, Apatani Youth Association (AYA) president Tapi Mali and Secretary Nani Tangu, All Ziro Hapoli Youth Association president Christopher Hage, Scrap Dealer's Association represented by Michi D.Chobin, several ZPM's and HoD's.

Bulyang Day Celebration

Torch bearer of Apatani community bulyang need to be revived and rejuvenated; Tage Taki

ZIRO, May 18:

The Supung Bulyang needs to be revived and rejuvenated not only in the interest of Apatani community but also to give due recognition to aged-old traditional justice delivery system of tribals of Arunachal Pradesh, said local MLA and Minister Agriculture and Allied Er. Tage Taki at Abotani Hall on Saturday, May 13.

Attending the Bulyang Day celebration as the chief guest, Taki said time has now come to revive the lost glory of bulyang which had been the custodian of Apatani customary laws during the nascent period when there were no modern laws and courts, and which had projected Apatani society as a vibrant democratic set up of its own to rest of the world.

While urging for re-drafting, review of the bye-laws and the proposed 'Nikung Dapo' of the bulyang to make it relevant and practical in 21st century, Taki suggested a 'signature campaign' of every Apatani person aged above 20 years and above to approve the 'Nikung Dapo' in order to seek approval from Govt. to obtain legal recognition and codification as Apatani customary law.

Specifying that bulyangs were invested with inherent traditional powers while gaon buras were Govt. appointees, guest of honour and Lower

Subansiri Deputy Commissioner Bamin Nime suggested a 'symposium' involving participation of people from other tribes as well to evolve a strong and vibrant customary law keeper body as bulyang. He also evoked the need to urge the courts to hand over local disputes to 'Dispute Redressal Centers' which expedites local cases instead of the lengthy court cases.

Narrating the history and origin of bulyang, chairman Supung Bulyang Council (SBC) Retd. chief engineer Nani Tatung informed that the role of bulyang had been aptly described by well-known ethnologist Christopher Von Furer Heimendorf in his book 'Apatani and their neighbours' written in 1962 which described bulyang as collective upholders of Apatani tribal law and spokesmen of their own clan or clan-group unlike a village headman, invested with absolute authority, are indeed representatives of their own clan or clan-groups which collectively constituted a very effective system of local-self governing democratic institution in Apatani community to maintain peace and harmony, law and order and provide social justice since time immemorial'. Presently there are 159 bulyang members representing each clan or clan-group in the Apatani society, informed Tatung.

Citing Battle of Kure in 1949 as

watershed in the history of bulyang for its downfall, Tatung also informed that the first general conference to revive the SBC had been held in 2012 under the leadership of state's first pilot officer Lt. Kuru Hassang. On behalf of SBC Tatung also submitted a memorandum to the local MLA and DC appealing for giving legal recognition to 'Nikung Dapo' and codification as Apatani customary law already submitted to Govt. in 2010, and giving legal recognition to bulyang as traditional self-governing village council under the provision of Assam Frontier (Administration of Justice) Regulation Amendment Bill 2023.

Special invitee and Tani Supung Dukung President Retd. IAS H.K. Shalla, SBC chief advisor and senior citizen Mudo Nyikang, SBC general secretary Hage Sira Obing and SBC advisor Tapi Takha also spoke on the occasion.

Office bearers of prominent Apatani based NGO's including Apatani Women Association of Ziro (AWAZ) President Hibu Lily and Secretary Leegang Anya, Chairman Apatani Career Guidance Forum Er. Gyati Anda, Apatani Youth Association President Tapi Mali and General Secretary Nani Tangu and members of Apatani Students Union also attended the function.

DC held coordination meeting for better immunisation coverage

TAWANG, May 18:

Tawang Deputy Commissioner Kesang Ngurup Damo on Monday, May 15 asked the district's health department to "share the health facility profile with the BRO, the Army and other paramilitary forces deployed in the district for better coordination."

Chairing a meeting of the district task force on immunisation here, the DC said also that the vacant posts of ASHAs in a few villages be filled "immediately, without further delay."

Stating that "no eligible child should be left out without immunisation," the DC advocated "serious attention of review from all concerned" with regard to the "critical gap of population data of the district in actual head count and census."

Matters related to updating of routine immunisation, besides the Ayushman Bharat Yojana, the PMJAY, the CMAAY, etc, were also discussed during the meeting, which was attend-

ed by DMO Dr Rinchin Neema, senior doctors, programme officers, HWOs, and medical officers from the Army, the GREF, and the SSB.

The DMO in his address said that "routine immunisation is one of our core duties and we need to work more sincerely to increase our status with respect to immunisation data of the district."

He informed that a 'district special vaccination campaign' will be launched on 16 May.

"This campaign is besides the statewide immunisation campaign, and, during this district special campaign, all the health workers in different health facilities will go for another head count.

"This special routine immunisation campaign has been planned keeping in view the holy month which starts from 20 May this year, because the villagers are normally at home and do not go to their farms during

this holy month," he added.

Dr Namgey Dakpa presented a brief on the benefits under the AB-PMJAY and the CMAAY availed by the people of the district in hospitals in and outside the state, while District TB Control Officer Dr Urgan Lhamu spoke about the activities carried out by the District TB Control Society.

Dr Sangey Thinlay provided an update on "the fourth wave of Covid-19" and informed that "Covid has been declared as influenza-like symptoms by the WHO."

He added, however, that "cases of normal influenza-like symptoms in the district have decreased as the people have followed Covid protocols like using masks."
